

A close-up photograph of a person's hand wearing a white nitrile glove, using a yellow sponge to clean the center console of a car. The console features a gear shifter with a black and red patterned boot, a handbrake, and various control buttons. The background is blurred, showing the interior of the car. A blue rectangular box with white text is overlaid on the upper part of the image.

# CAR CARE PRODUCTS

**helpix**  
professional

TM Helpix products are automotive chemicals, car cosmetics and cleaning products, which are exclusively manufactured at own production facilities by ArtHim Scientific Production Enterprise LLC.

The company manufactures products based on chemical recipes of its own development, and uses chemical raw materials exclusively from European manufacturers.

We respond flexibly to market needs, create new formulas and test raw materials in our own laboratory.

The developed range of products is maximally adapted to the conditions of application in each specific region (by the nature of pollution, type of cleaning, etc.).

The company's products meet the European standards of environmental protection. Does not damage the surfaces to be cleaned, completely safe for human health and the environment. The level of biodegradation is above 90%.

The company SPE ArtHim LLC is guided by the Quality Policy according to ISO 9001 in its activity. Both the supplied raw materials and manufactured products undergo multi-stage quality control. The team of technologists of the enterprise provides support and trains the staff of the company with special features of TM Helpix products.

The commercial department of the enterprise accepts the applications for production and shipment of production across all Ukraine.

We also offer production under private labels of our partners.  
We look forward to working with you.
